

Unlock Instant GRC Expertise with Verterim's AI-Powered Advisory Chatbot

GRC ADVISORY CHATBOT

Verterim's **GRC Advisory Chatbot** is an AI-powered tool that gives teams instant access to expert Governance, Risk, and Compliance (GRC) knowledge. Users can ask tailored questions to virtual subject matter experts (SMEs) trained in roles like **Third Party Risk Analyst**, **Auditor**, **Cyber Risk Analyst**, and **NIST CSF Compliance Analyst**.

By selecting a specific expert or querying all roles, users get precise, role-specific responses to enhance risk analysis, improve decision-making, and align with compliance requirements faster. This solution **boosts efficiency, accuracy**, and the overall effectiveness of your GRC program!

- Instant access to virtual SMEs in roles like Third Party Risk Analyst, Auditor, Cyber Risk Analyst, and NIST 800-53 rev 5 Compliance Analyst
- Ask tailored questions to specific chatbot roles or query all roles for precise, role-specific responses
- Enhance decision-making by delivering expert knowledge to help align with compliance faster
- Improve efficiency, accuracy, and effectiveness in risk management processes
- Integrate chatbot responses into leading GRC tools like ArcherIRM

Expert Virtual GRC Subject Matter Experts On-Demand
