

# We Accelerate Contract Reviews with AI-Powered Insights

## CONTRACT

The **Contract GRC AI Agent** helps our consultants quickly **identify unfavorable terms in contracts**, such as Statements of Work or Master Services Agreements. By analyzing past approved contracts and setting predefined criteria, the **agent flags terms that deviate from preferred standards, enabling faster, more consistent contract reviews.**

- Flag unfavorable terms in contracts based on predefined criteria.
- Analyze past approved contracts to establish baselines.
- Automate review of key terms, such as payment terms or liability clauses.
- Reduce contract review times and enhance contract accuracy.
- Ensure consistency across contracts for better risk management.

## Transform Contract Reviews with AI for Faster, Smarter Risk Management
