

Accelerate NIST Compliance with Advanced AI

NIST P R E D I C T

Verterim's NIST Predict is an AI-powered tool that helps users **evaluate risks and issues against NIST controls faster than ever before**. It automatically identifies noncompliance and presents the top 10 relevant NIST controls for cross-referencing, streamlining the compliance process and aligning with multiple controls efficiently and accurately.

NIST Predict also **simplifies NIST CSF 2.0 reporting**. Whether used as a stand-alone solution or integrated with GRC platforms, it delivers fast, accurate insights for improved compliance and risk analysis.

- Evaluate risks and issues against NIST controls, identifying noncompliance automatically
- Understand the top 10 relevant NIST controls for efficient cross-referencing and alignment
- Simplify NIST CSF 2.0 reporting, enhancing risk management and compliance efforts
- Functions as a stand-alone solution or integrates with leading GRC platforms like ArcherIRM, offering fast and accurate insights

Fast, Accurate Risk Analysis and Reporting

Verterim's AI NIST Predict: Compliance Catalyst
