

# Hosting & Managed Services

## Best in class Hosting & Managed Services for Archer IRM

### OUR HOSTING SOLUTION

Initially developed in 2016 at the request of our consulting clientele, Verterim created a truly flexible, secure and highly performant cloud hosting solution for Archer IRM. This solution has been purposely developed as a Private Azure instance to provide advantages such as client-controlled updates, encryption options, application elasticity based on demand and accessible self-service integrations.

**Set Up Archer IRM Environments in 24 Hours**

**Proactively Identify & Resolve Platform Issues**

**Automation to Manage Uptime and Performance**

**Complete Disaster Recovery and Resiliency**

**Migrate from an Existing Hosted or On-Premise Solution**

**Implement Single-Sign On (SSO) and Multi-factor Authentication**

**Upgrade on your Team's Schedule**

**Scalable Options for your Performance Needs**
