We Simplify Vendor Assessment Reviews with AI

VENDOR

The **Vendor GRC AI Agent** enhances the vendor onboarding and selection process by analyzing compliance and security documentation provided by vendors. By **automatically mapping vendor materials against best practice frameworks like NIST, ISO, and GDPR**, our consultants can quickly identify gaps and request necessary remediations before proceeding with vendor engagements, mergers, or acquisitions.

- **Analyze vendor documentation** for compliance and security gaps.
- **Map vendor practices against frameworks** like NIST, ISO, and GDPR.
- **Flag gap areas** requiring remediation to meet organizational standards.
- **Enhance due diligence** during vendor onboarding and selection and save time by automating the review process.
